OBJECTIVE

Detail-oriented Automation Engineer & RPA Developer with 2+ years of experience in designing, developing, and deploying intelligent automation solutions using Python, Selenium, UiPath, and Power Automate. Proven expertise in optimizing workflows, reducing operational costs, and enhancing efficiency through end-to-end automation. Passionate about leveraging AI, cloud technologies, and CI/CD to drive innovation and scalability in automation solutions.

TECHNICAL SKILLS

Programming Python.

Automation & RPA Selenium, Power Automate, UiPath, Power Platform

AI & NLP GenAI, LangChain, BERT

Frameworks Django, Flask

Frontend HTML, Tailwind CSS

Version Control & OS Git, GitHub, Windows, Linux (Ubuntu)

API Tools Postman

Libraries Pandas, Numpy, Threading, Multi Processing, Fitz, TensorFlow

Cloud & DevOps Docker, Kubernetes, Jenkins, Azure DEVOPS

EXPERIENCE

RPA Developer - Executive Developer

Sept 2022 - Present Ahmedabad, INDIA

EMP Claims

- Automated 95% of manual workflows using Python and Selenium, reducing processing time by 70% and error rates by 90%, leading to improved efficiency in claims processing.
- Designed and deployed Power Automate solutions for EHR/PMS portals, cutting manual data entry time by 80% and improving eligibility verification accuracy by 80%.
- Designed and deployed UiPath bots for claims processing, reducing approval time by 50%.
- Implemented CI/CD pipelines with Azure DevOps & Kubernetes, cutting VM costs by 30% and increasing deployment speed by 50%.
- Integrated APIs with EHR/PMS systems, automating data retrieval and synchronization, reducing manual intervention by 90%.
- Developed desktop automation bots with Power Automate Desktop, optimizing repetitive tasks across multiple healthcare applications.
- Ensured data security and compliance by implementing Azure Key Vault for credential management and adhering to HIPAA best practices.
- Collaborated with business teams and healthcare clients to gather requirements and deploy scalable automation solutions.

Intern ONGC June 2022 - August 2022 Dehradun, INDIA

• Developed an Automated File Management System, improving document retrieval efficiency by 50% through indexing and search optimization.

EDUCATION

KRISHNA ENGINEERING COLLEGE,

Dr. A. P. J. Abdul Kalam Technical University

Bachelor of Technology in INFORMATION TECHNOLOGY

CGPA: 7.20 2019 - 2023

CERTIFICATIONS

- Microsoft Certified PL-900 Power Automate RPA Developer Associate
- Python Programming IIT Kanpur (2022)
- AI and Cognitive Technologies IBM Skills Build (2021)

LEADERSHIP & ACHIEVEMENTS

- Best Performer Software Team (Jan 2024) Recognized for outstanding performance in automation development.
- Innovator Award (Oct 2023) Awarded for pioneering automation projects that led to significant efficiency gains.
