OBJECTIVE

Detail-oriented QA Engineer with 2+ years of experience in automation and manual testing. Proficient in Python, Java, Selenium WebDriver, Appium, and API testing, with a strong understanding of software testing life cycle (STLC), defect tracking, and test automation frameworks. Seeking a QA Engineer role to leverage my expertise in test automation, continuous integration, and software quality assurance to ensure robust and high-performing applications.

TECHNICAL SKILLS

Programming	Python.
Testing and QA	Test Automation, Manual Testing, Functional Testing, Regression Testing, Cross-Browser Testing, Test Case Design, Defect Tracking
Automation Frameworks	Selenium WebDriver, Appium, PyTest, Postman(API Testing), Microsoft Power Automate
Version Control and CI/CD	GIT, Azure DevOps, Jenkins, Docker
Libraries	Pandas, Numpy, Threading, Multi Processing, Fitz, TensorFlow, PyAutoGUI, Flask
WebServices	RESTful APIs

EXPERIENCE

AI Engineer   April 2025 - Present
Corro Health   *Noida,INDIA*

- Contributing to the HCC prompting project by validating AI-driven suggestions for accuracy and compliance.
- Utilizing Python and Azure AI Services for test automation and workflow integration in healthcare applications.

RPA Developer - Executive Developer   Sept 2022 - March 2025
EMP Claims   *Ahmedabad,INDIA*

- Developed and maintained automated test scripts using Python, Java, Selenium WebDriver, and Appium, increasing test coverage by 30% and reducing manual effort by 40%.
- Designed and implemented Selenium-based automation frameworks in Python for EHR/PMS portals, reducing manual data entry time by 80% and enhancing eligibility verification accuracy by 80% through efficient web testing solutions.
- Managed test cases and defect tracking using Azure DevOps, ensuring structured reporting and efficient resolution of defects.
- Integrated automated test workflows across distributed systems using RESTful APIs, enabling real-time test monitoring.
- Implemented CI/CD pipelines with Azure DevOps & Kubernetes, cutting VM costs by 30% and increasing deployment speed by 50%.
- Integrated APIs with EHR/PMS systems, automating data retrieval and synchronization, reducing manual intervention by 90%.
- Experience in automation and manual testing of mobile applications and web-based applications.
- Ensured data security and compliance by implementing Azure Key Vault for credential management and adhering to HIPAA best practices.
- Collaborated with business teams and healthcare clients to gather requirements and deploy scalable automation solutions.

Intern   June 2022 - August 2022
ONGC   *Dehradun,INDIA*

- Developed an Automated File Management System, improving document retrieval efficiency by 50% through indexing and search optimization.

EDUCATION

KRISHNA ENGINEERING COLLEGE,   CGPA : 7.20
Dr. A. P. J. Abdul Kalam Technical University   2019 - 2023
Bachelor of Technology in INFORMATION TECHNOLOGY

CERTIFICATIONS

- **Microsoft Certified PL-900** - Power Automate RPA Developer Associate
- **Python Programming** – IIT Kanpur (2022)
- **AI and Cognitive Technologies** – IBM Skills Build (2021)

LEADERSHIP & ACHIEVEMENTS

- **Best Performer** – Software Team (Jan 2024) – Recognized for outstanding performance in automation development.
- **Innovator Award** (Oct 2023) – Awarded for pioneering automation projects that led to significant efficiency gains.
